

CHRONIC DISEASE ANNUAL REVIEWS

We are making some changes to the way we invite our patient's for chronic disease annual reviews.

From now, we aim to review all relevant patient's in the

month of their birthday calling them in 2 months in advance ie: during May we will remind patient's born in July to make an appointment to see the nurse in July.

We will try to do all reviews at the same appointment to avoid patient's having to come back. This should make it more convenient and easier for our patient's to remember when they need to call the surgery for an appointment.

Thank you.
